

AVUNOORI SANDEEP

GUIDEWIRE GW CLOUD IG INTEGRATION DEVELOPER

3+ YEARS

POLICYCENTER
P&C • PERSONAL AUTO

aasandeep236@gmail.com | +91 7794911207

PROFESSIONAL PROFILE

Guidewire Developer with 3+ years of IT experience and hands-on Guidewire PolicyCenter configuration experience in P&C insurance and Personal Auto. Experienced in Gosu, PCF, Product Model, entities, typelists, validations, UI customization and business-rule development. Familiar with Guidewire integration concepts and REST/SOAP, XML and JSON patterns, with a focus on developing maintainable PolicyCenter solutions and supporting integration requirements. To contribute as a Guidewire GW Cloud IG Integration Developer by applying my PolicyCenter configuration, Gosu, insurance-domain and integration knowledge to build reliable Guidewire solutions, collaborate with architecture and business teams, and grow further in Guidewire Cloud and Integration Gateway technologies.

CORE SKILLS

Guidewire	PolicyCenter, Gosu, PCF, Product Model, Entities, Extensions, Typelists, Validation
Integration	REST, SOAP, XML, JSON, Web Services, Integration concepts
Cloud	Guidewire Cloud Platform concepts; cloud-specific architecture exposure
Insurance	P&C, Personal Auto, Policy Lifecycle, Auto Insurance, Subrogation
Development	Java, Python, Gosu, Business Rules, UI Configuration
Tools	Guidewire Studio, Eclipse, Git, JIRA
Methods	Agile, Scrum, SDLC, Unit Testing, Defect Resolution

PROFESSIONAL EXPERIENCE

BOVEN Technologies — Guidewire Developer

Client: ZENSAR Technologies | Aug 2022 – Present

PROJECT: SUNCORP — GUIDEWIRE POLICYCENTER

Role: Guidewire Developer | Team Size: 6 | Project Duration: Aug 2022 – Present | Environment: Guidewire PolicyCenter

Suncorp is a major banking and insurance service provider in Australia and New Zealand. Worked on development of a Subrogation module related to Auto Insurance, supporting identification of third parties for easy contact and follow-up.

GUIDEWIRE CONFIGURATION & INTEGRATION RESPONSIBILITIES

- Configured PolicyCenter data models by creating entities and fields for the Subrogation module.
- Customized PCF screens and UI components to improve business workflows and user experience.
- Developed Gosu scripts to automate business processes and support business-rule-driven functionality.
- Supported integration-oriented requirements and worked with REST/SOAP, XML and JSON concepts for external-system connectivity.
- Worked with PolicyCenter configuration components including Product Model, entities, typelists, validations and business rules.

- Analyzed requirements and collaborated with technical/business teams to translate them into maintainable Guidewire solutions.
- Managed JIRA tasks, participated in Agile/Scrum ceremonies, testing, defect resolution and delivery activities.

TECHNICAL RESPONSIBILITIES

- Design and configure PolicyCenter solutions using Guidewire configuration, Gosu and Product Model customization.
- Develop and extend business functionality using Gosu scripts, rules, validations and enhancements.
- Support integration requirements between Guidewire and external systems using standard web-service patterns.
- Participate in code reviews, unit testing, debugging, troubleshooting and technical documentation.
- Analyze defects across configuration, integration and data layers and support root-cause resolution.
- Support data mapping, validation and transformation requirements for integration and migration activities.
- Collaborate with business analysts, solution architects, QA and client technical teams.
- Support upgrade, patch and regression activities when required.

GUIDEWIRE CLOUD / IG SKILL EXPOSURE

Guidewire Cloud Platform — Working knowledge of GW Cloud concepts and cloud-oriented Guidewire architecture.

Integration Gateway — Knowledge of the role of Integration Gateway in connecting Guidewire with external systems.

App Events — Conceptual familiarity; not represented as production hands-on experience.

REST / SOAP — Familiarity with service integration patterns and payload formats.

XML / JSON — Familiarity with request/response and data-structure concepts.

CI/CD — Conceptual familiarity with structured deployment and pipeline practices.

CORE COMPETENCIES

Platform Depth — Guidewire PolicyCenter configuration, Gosu, PCF, Product Model, entities and business rules.

Integration Thinking — Understanding of maintainable Guidewire-to-external-system integration patterns.

Insurance Literacy — P&C insurance, Personal Auto, policy lifecycle and Auto Insurance Subrogation.

Delivery Discipline — JIRA-based delivery, Agile/Scrum, testing, defect resolution and documentation.

Collaborative Problem Solving — Working across BA, architecture, QA, development and client teams.

Adaptability — Ability to learn cloud, integration and evolving Guidewire platform standards quickly.

EDUCATION

Master of Computer Applications (MCA) — University College of Science, Saifabad | GPA: 7.69 | 2022

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief. I understand that any misrepresentation or material omission of facts will disqualify me from consideration for employment.
